# Roshan Raut

DevOps | AWS | Azure | Terraform | CKAD  
Leidschendam, South Holland, Netherlands

## Summary

Forward-thinking DevOps Engineer with strong expertise in CI/CD, Build Engineering, and Release Management across enterprise applications. Skilled in AWS and Azure cloud platforms and automating it with infra as code with Terraform/Terragrunt, containerization with Docker, and managing Kubernetes clusters for scalable deployments. Experienced in end-to-end code configuration, artifact build/release, and automated deployments in dynamic, fast-paced environments. Adept at optimizing pipelines, ensuring reliability, and driving cloud-native transformation.

Over the years, I have:

- ✓# Migrated applications to the AWS/Azure cloud, ensuring scalability, performance, and cost efficiency.
- ✓# Designed & automated CI/CD pipelines using Github, Jenkins, AWS CDK, Helm, and Terraform.
- ✓# Managed Kubernetes clusters (EKS/AKS), enabling seamless deployments and operational resilience.
- ✓# Resolved critical incidents and optimized cloud performance, improving system reliability.
- ✓# Monitoring and observability using Prometheus and Grafana
- ✓# Collaborated across teams to drive DevOps best practices, cloud security, and automation.

Passionate about cloud automation, DevOps best practices, and problem-solving.

Let's connect and talk Cloud & DevOps!
