

Roshan Raut

Voorburg, South Holland, Netherlands | +31 6 1671 7032 | raut.roshan3110@gmail.com | linkedin.com/in/roshan-raut-devops-engineer

Languages: English, Hindi (Full Professional) | Marathi (Native)

PROFESSIONAL SUMMARY

Senior DevOps and Platform Engineer with 9+ years of experience designing and operating cloud-native infrastructure on AWS and Azure. Specializes in Kubernetes (EKS/AKS) platform engineering, Infrastructure as Code with Terraform/Terragrunt, and CI/CD automation supporting 10+ engineering teams. Proven track record of building self-service developer platforms, hardening cluster security, and integrating observability stacks (Prometheus, Grafana, ELK). Passionate about cloud automation, developer productivity, and enabling reliable, scalable event-driven architectures.

TECHNICAL SKILLS

Cloud Platforms: AWS (EKS, MSK, Lambda, API Gateway, IAM, Bedrock), Microsoft Azure (AKS)

Containers & Orchestration: Kubernetes (EKS, AKS), Docker, Helm

Infrastructure as Code: Terraform, Terragrunt, AWS CDK

CI/CD & Automation: GitHub Actions, Jenkins, GitHub (self-hosted runners, repository templates)

Observability & Monitoring: Prometheus, Grafana, ELK Stack

Data & Streaming: AWS MSK (Managed Kafka), Confluent Schema Registry, Databricks

Identity & Security: IAM, SSO, SCIM provisioning, least-privilege access design

Certifications: CKAD, AWS Databricks Platform Architect, Azure (AZ-104, AZ-400, AZ-305), AWS-SSA, HCTA-002

PROFESSIONAL EXPERIENCE

Fugro

Feb 2024 – Present

Innovation Engineer (Platform / DevOps)

Nootdorp, Netherlands

- Operate and optimize Kubernetes platforms (EKS/AKS) for 10+ engineering teams, leading cluster upgrades, security hardening, feature enablement, and observability integrations to ensure platform stability and performance.
- Provision and manage AWS MSK (Managed Kafka) clusters and Confluent Schema Registry deployments via Terraform, enabling reliable event-driven data pipelines across multiple product teams.
- Engineer Databricks workspace infrastructure with Terraform and Terragrunt – including cluster policies, instance pools, and IAM role bindings – standardizing analytics environments organization-wide.
- Automate IAM group management and SSO/SCIM provisioning across enterprise tools (GitHub, Jira, Asana, Figma), reducing onboarding overhead and enforcing least-privilege access at scale.
- Build reusable Terraform modules and custom GitHub Actions for multi-team CI/CD; maintain GitHub repository templates and self-hosted GitHub runners to standardize delivery pipelines.
- Deploy and operate self-managed Grafana on EKS; onboard teams to centralized logging and monitoring for AWS Lambda and API Gateway workloads using Prometheus and the ELK stack.
- Drive AI-assisted developer productivity initiatives, enabling GitHub Copilot, Cloud Code IDE integrations, and evaluating AWS Bedrock for internal AI workflows.

CGI Nederland

Dec 2021 – Jan 2024

DevOps Engineer

Rotterdam, Netherlands

- Migrated enterprise applications to AWS and Azure, delivering scalable, performant, and cost-efficient cloud architectures.
- Designed and automated end-to-end CI/CD pipelines using GitHub, Jenkins, AWS CDK, Helm, and Terraform, accelerating release cycles across multiple teams.
- Managed production Kubernetes clusters (EKS/AKS), enabling reliable deployments and operational resilience for business-critical workloads.
- Implemented monitoring and observability with Prometheus and Grafana; resolved critical incidents and tuned cloud workloads to improve system reliability.
- Partnered with cross-functional teams to embed DevOps best practices, cloud security, and automation into the software delivery lifecycle.

Tech Mahindra

May 2016 – Oct 2021

Software Engineer

Pune, India & The Hague, Netherlands

- Delivered build/release management and code configuration for enterprise applications, contributing to artifact build pipelines and automated deployments.
- Supported large-scale application environments and progressively expanded scope into CI/CD, cloud, and DevOps practices over 5+ years.

EDUCATION

University of Pune

2010 – 2014

Bachelor of Electrical Engineering

India
